PRECISION CHEMISTRY FOR REAL RESULTS

Vive products contain the **Allosperse**[®] delivery system – technology that changes how proven active ingredients behave in the spray tank.

You'll have peace of mind that you're getting uniform protection across the field – every time. Through pivots, with liquid fertilizer or hard water, or even a rain delay.

Put a Vive Precision Chemistry product in the tank and forget about it. Simply revolutionary.

CONVENIENT DISEASE CONTROL AND BETTER PLANT HEALTH

AZteroid[®] FC^{3.3}

AZteroid[®] FC 3.3 maximizes the potential for high quality and high yield and is suitable for extended cutting intervals. It improves yield by providing systemic disease control that protects new growth and increases plant health. AZteroid FC 3.3 mixes with foliar fertilizer, micronutrients and most insecticides.

Plant health benefits include:

- + Quicker green up following a cutting
- + Higher stem counts
- + Better winter survival and stand longevity
- + Improved quality and quicker regrowth
- + Improved drought tolerance
- + Stronger roots and stems to resist weather and pests
